

## Stage Plan

If client is hiring backline, our preference is valve amplification and 4 piece drum Kit.  
 (Drum kit must include all pedals, stool, cymbals and spare skins).

2 x Vox AC 30 Valve amp or 2 x Fender Twins Valve

1 x Bass Head and cabinet with 4- 10 inch speakers minimum 300 watts.

**POWER: 240v AC 50Hz**

### Monitor Mixes

Monitor 1: Lots of own vocal, Average track, Little overall vocal mix

Monitor 2: Lots of own vocal, No track, Little overall vocal mix

Monitor 3: Lots of own vocal, Average track, Little overall vocal mix

Drum Send 4: Average own Vocal, 50% overall vocal mix, No track,

Drummer uses in-ear monitors with own mixer, so a send is required to this mixer.

No physical monitor speaker is required for the drummer.

The track (mono) into D.I. Box linked back to drummers mixer.
